

REMARKS

This application claims the priority of PCT/GB2004/004619 filed on November 1, 2004 and GB 0325504.9 filed on 31 October 2003, the entire contents of which are hereby incorporated in total by reference.

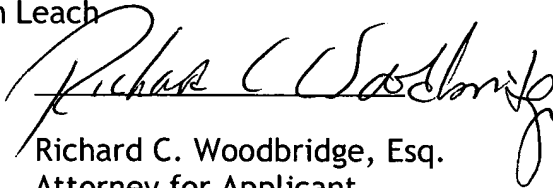

The U.S. Patent Office is hereby requested to examine the application as amended. The amendment to the specification was made to include the priority information. The amendments to the claims were made to remove the multiple dependencies. No new matter has been added by making these amendments.

If the patent examiner has any questions or comments, he/she is respectfully requested to contact applicant's attorney at the telephone number indicated below so that additional amendments may be added as required.

Respectfully submitted,

John Leach
